

Mohammad Ashad Khan

Computer Science Engineer

I'm a Goal-oriented Web Developer with a strong dedication and commitment to collaboration and solutions-oriented problem-solving. I use various web design packages to develop custom-crafted, customer-focused websites and designs. Committed to high standards of user experience. Being a beginner in this field I'm working quite hard to maintain my existence to be seen as an experienced web developer further ahead by being familiar with different technologies for their demand of interface and its operations.
